- 1) Der Vorsitzende bezog 600 Thlr. Bauzulage.
- 2) Vier Mitglieder bezogen je 1000 Thlr. und ein desgl. 225 Thlr. Bauzulage; vier Mitglieder bezogen ihr Gehalt aus Baufonds.
- 3) Zwei Mitglieder bezogen je 400 Thlr. Miethsentschädigung; ein Mitglied bezog sein Gehalt und 800 Thlr. Bauzulage aus Baufonds.
- 4) Ein Bureau-Vorsteher bezog 240 Thlr. Bauzulage; ein Bureau-Vorsteher bezog sein Gehalt und 240 Thlr. Bauzulage aus Baufonds.
- 5) Zwei Eisenbahn-Secretaire bezogen je 100 Thlr. Funktionszulage; dreizehn Eisenbahn-Secretaire bezogen ihre Gehälter, sowie drei desgl. 332 Thlr. Funktionszulage aus Baufonds.
- 6) Fünf Betriebs-Secretaire bezogen 500 Thlr. Funktionszulage; elf Betriebs-Secretaire bezogen ihre Gehälter, sowie drei desgl. 160 Thlr. Funktionszulage aus Baufonds.
- 7) Drei Kanakliken bezogen ihr Gehalt und ein desgl. 50 Thlr. Funktionszulage aus Baufonds.
- 8) Fünf Büreaudiener erhielten 630 Thlr. Reinigungsgelder; zwei Büreaudiener bezogen ihr Gehalt sowie 144 Thlr. Reinigungsgelder und 30 Thlr. persönliche Zulage aus Baufonds; die Billetdrucker bezogen 150 Thlr. persönliche Zulage.
- 9) Der Eisenbahn-Bau-Inspector bezog 200 Thlr. Miethsentschädigung und 300 Thlr. Bauzulage.
- 10) Drei Eisenbahn-Baumeister bezogen 541 Thlr. 20 Sgr. Miethsentschädigung und 541 Thlr. 20 Sgr. Ortszulage.
- 11) Der Vorsteher der Central-Materialien-Verwaltung bezog 100 Thlr. Ortszulage.
- 12) Die Betriebs-Controleure bezogen 382 Thlr. 20 Sgr. Funktionszulage.
- 13) Der Hauptkassen-Rendant bezog 300 Thlr. Bauzulage.
- 14) Der Kassirer bezog 140 Thlr. Bauzulage.
- 15) Ein Kassen-Assistent bezog 100 Thlr. Bauzulage.
- 16) Ein Kassendiener erhielt 180 Thlr. Reinigungsgelder.
- 17) Der Bau- und Betriebs-Inspector bezog 183 Thlr. 10 Sgr. Miethsentschädigung und 83 Thlr. 10 Sgr. Ortszulage.
- 18) Die Betriebs-Inspectoren bezogen 275 Thlr. 10 Sgr. Miethsentschädigung, 16 Thlr. 20 Sgr. Funktionszulage und 16 Thlr. 20 Sgr. Ortszulage; ein Betriebs-Inspector bezog sein Gehalt, sowie 300 Thlr. Funktionszulage aus Baufonds.
- 19) Die Eisenbahn-Baumeister bezogen 2,899 Thlr. 20 Sgr. Miethsentschädigung und Ortszulage; zwei Baumeister bezogen 350 Thlr. Funktionszulage; neun Baumeister bezogen ihr Gehalt, sowie 1,100 Thlr. Miethsentschädigung, 800 Thlr. Funktionszulage und 500 Thlr. Ortszulage aus Baufonds.
- 20) Die Eisenbahn-Baumeister bezogen 1,560 Thlr. Miethsentschädigung und Ortszulage.
- 21) Die Bahnmeister bezogen 80 Thlr. Ortszulage.
- 22) Die Bahnwärter bezogen 2,956 Thlr. 10 Sgr. Funktionszulage.
- 23) An Stations-Vorsteher wurden 166 Thlr. 20 Sgr. Miethsentschädigung gezahlt.
- 24) An Stations-Assistenten sind 40 Thlr. Miethsentschädigung gezahlt.
- 25) Die Weichensteller bezogen 230 Thlr. Funktionszulage.
- 26) An Portiers wurden 2,689 Thlr. 20 Sgr. Miethsentschädigung und 16 Thlr. 10 Sgr. Reinigungsgelder gezahlt.
- 27) Die Nachtwächter bezogen 838 Thlr. Futterkosten für Wachthunde.

des Anlage-Kapitals.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Tit. XIII.                                                                   | Tit. XIV.                                                                    | Tit.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                              |       und 117337.

## D. Bergisch-Märkische III. Serie Ltr. B.

(Für die Ruhr-Sieg-Eisenbahn emittirt.)

Ausloofung vom 6. Juli 1871.

Nr. 143592 à 100 Thaler.

Ausloofung vom 17. Juli 1872.

Nr. 128120 à 200 Thaler.

Nr. 138965 und 146462 à 100 Thaler.

Ausloofung vom 16. Juli 1873.

Nr. 123229 à 1000 Thaler.

Nr. 128228 à 200 Thaler.

Nr. 130829. 131502. 132598. 136821. 138941. 145242. 145426. 156059 und 157154 à 100 Thaler.

## E. Bergisch-Märkische IV. Serie.

Ausloofung vom 14. Juli 1870.

Nr. 7765 und 8373 à 200 Thaler.

Nr. 8817. 10488. 11817 und 12356 à 100 Thaler.

Ausloofung vom 6. Juli 1871.

Nr. 7653 und 7802 à 200 Thaler.

Nr. 10020. 10333. 11116. 11510. 12471 und 12579 à 100 Thaler.

Ausloofung vom 10. Juli 1872.

Nr. 6817 à 500 Thaler.

Nr. 7787 à 200 Thaler.

Nr. 10217. 10226. 10901. 11317 und 12550 à 100 Thaler.

Ausloofung vom 14. Juli 1873.

Nr. 1916. 7019. 7534. 7535. 7773. 8379 und 8489 à 200 Thaler.

Nr. 2371. 4390. 5047. 6106. 8820. 8923. 9629. 10208. 10276. 10444. 11478. 11940 und 12152 à 100 Thaler.

## F. Bergisch-Märkische V. Serie.

Ausloofung vom 12. Juli 1869.

Nr. 5690 à 200 Thaler.

Ausloofung vom 14. Juli 1870.

Nr. 20152 à 100 Thaler.

Ausloofung vom 6. Juli 1871.

Nr. 13887 à 100 Thaler.

Ausloofung vom 16. Juli 1872.

Nr. 15317 à 100 Thaler.

## Ausloosung vom 14. Juli 1873.

Nr. 80, 213, 1243, 1551, 1597, 1691, 22273, 23129 und 23323 à 500 Thaler.  
 Nr. 3233, 3382, 3415, 7484, 7498, 8406, 8680, 9274, 10385, 10463, 11063, 11526, 24928, 26365, 27002, 27267.  
 28087, 28109, 28310, 28668, 29780, 30799, 30969, 31910, 32083, 32991, 33016, 33971 à 200 Thaler.  
 Nr. 13103, 14033, 14501, 14910, 15064, 15372, 15938, 17151, 17659, 17788, 17871, 17939, 19734, 19751, 20424.  
 20580, 21764, 34489, 35317, 36791, 36859, 37990, 38300, 38352, 38507, 38937, 40623, 41444, 41659, 41760.  
 42835, 42989, und 43966 à 100 Thaler.

## G. Düsseldorf-Elberfelder I. Serie.

Ausloosung vom 18. Juli 1870.

Nr. 1886.

Ausloosung vom 8. Juli 1872.

Nr. 676, 1686, 3186, 5094 und 5826.

Ausloosung vom 8. Juli 1873.

Nr. 2808, 3175, 3304, 5343, 5636, 6068, 6400, 6541, 7008 und 9318.

## H. Düsseldorf-Elberfelder I. Serie.

Ausloosung vom 26. Juli 1869.

Nr. 3607.

Ausloosung vom 18. Juli 1870.

Nr. 1667.

Ausloosung vom 17. Juli 1871.

Nr. 367.

Ausloosung vom 8. Juli 1872.

Nr. 321, 1518 und 2057.

Ausloosung vom 8. Juli 1873.

Nr. 57, 124, 637, 659, 905, 1142, 1183, 1731, 1972, 2279, 2440, 3128, 3779, und 3967.

## J. Dortmund-Soester I. Serie.

Ausloosung vom 20. Juli 1867.

Nr. 1588.

Ausloosung vom 12. Juli 1869.

Nr. 13010.

Ausloosung vom 14. Juli 1870.

Nr. 5029.

Ausloosung vom 15. Juli 1873.

Nr. 153, 155, 409, 499, 990, 1032, 1097, 4014, 4572, 4902, 5355, 5794, 6483, 6489, 6964, 7258, 7448, 8476.  
 9700, 10378, 10736, 10974, 11430 und 11603.

## K. Dortmund-Soester II. Serie.

Ausloosung vom 20. Juli 1867.

Nr. 2365 und 3150.

Ausloosung vom 13. Juli 1868.

Nr. 3489.

Ausloosung vom 12. Juli 1869.

Nr. 968 und 9724.

Ausloosung vom 14. Juli 1870.

Nr. 1190, 5550, 6050 und 11448.

Ausloosung vom 6. Juli 1871.

Nr. 5937, 7533, 8814 und 11618.

Ausloosung vom 18. Juli 1872.

Nr. 657, 1035, 1807, 5471, 9553, 9961, 10121, 10682, 11830, 12348 und 12356.

Ausloosung vom 15. Juli 1873.

Nr. 49, 549, 577, 686, 884, 1051, 2106, 5020, 5067, 6034, 6673, 6904, 7193, 7612, 8101, 9257, 10310, 10890.  
 11248, 11906, 12030, 12302 und 12423.

## L. Aachen-Düsseldorfer I. Emission.

Ausloosung vom 24. Juli 1867.

Nr. 1937 und 3591.

Ausloosung vom 25. Juli 1870.

Nr. 958 und 4491.

Ausloosung vom 7. Juli 1871.

Nr. 608, 5272, 6569.

Ausloosung vom 12. Juli 1872.

Nr. 2122 und 5032.

Ausloosung vom 11. Juli 1873.

Nr. 1014, 1631, 1929, 3403, 4058, 4717 und 5048.

## M. Aachen-Düsseldorfer II. Emission.

Ausloosung vom 7. Juli 1871.

Nr. 9733.

Ausloosung vom 12. Juli 1872.
